

## THE ALPINE ADVANTAGE ON CORN

- ▶ Maximizes available phosphorus required for top yields
- ▶ Promotes quick, uniform emergence
- ▶ Seed safe at recommended rates
- ▶ Promotes drier corn at harvest
- ▶ Precision placement promotes nutrient efficiency
- ▶ Optimizes plant health
- ▶ Non-corrosive on planter equipment and tanks
- ▶ Clean, easy handling

# GIVE YOUR CORN THE ALPINE ADVANTAGE

the starter fertilizer company™

# GO WITH THE LEADER ALPINE

- ▶ Highest quality liquid starter fertilizers
- ▶ Quality, precision placement, seed safe
- ▶ Low impurities
- ▶ Low salt
- ▶ True solution N-P-K
- ▶ Orthophosphate (available phosphorus)
- ▶ Highly soluble

ALPINE liquid starters have a neutral pH and are low in both salt index and impurities. These features of our liquid starters enable the product to be placed directly with the seed at planting time. Placement with the seed allows the available phosphorus to be taken up at the critical early stages of growth to maximize yield potential.

ALPINE liquid starters contain a high level of orthophosphate. Orthophosphate is immediately available to the plant during the critical early stages of growth. Plants can only take up phosphorus in the orthophosphate form.

# GIVE YOUR CORN CROP THE ALPINE ADVANTAGE

Corn has a critical need for phosphorus from germination to the 6-leaf stage, where maximum yield potential is determined. The ALPINE Advantage ensures that the corn seedling has adequate available phosphorus in contact with the seed and roots where it can be easily taken up.

This is especially true in today's production systems where corn is planted earlier into colder and wetter soils. Side-band starters and broadcast applications may not be available for up to 6 weeks.

Give today's vigorous corn hybrids the benefit of seed placed ALPINE liquid starter.

For maximum yields and early season plant performance, give your corn crop The ALPINE Advantage.

- ▶ Maximizes available phosphorus required for top yields
- ▶ Promotes quick, uniform emergence
- ▶ Seed safe at recommended rates
- ▶ Promotes drier corn at harvest
- ▶ Precision placement promotes nutrient efficiency
- ▶ Optimizes plant health
- ▶ Non-corrosive on planter equipment and tanks
- ▶ Clean, easy handling

## Sales and Service Advantage

- ▶ Most experienced sales team in the business
- ▶ Direct support at farm level
- ▶ Large dealer network across the prairies

## Equipment Support Advantage

- ▶ 35 years of equipment experience
- ▶ Inventory of storage tanks
- ▶ Application kits available for all makes and models of planters and drills

## Logistics and Delivery Advantage

- ▶ Dedicated railcar fleet
- ▶ Deliveries of 70,000L per railcar
- ▶ Experienced logistics team
